Ordering Replacement Windows

As your replacement window contractors, we offer many exciting design elements combined to produce the ideal windows for your home. These are the primary design options that you can combine, with the help of your Energy Shield expert window design consultant, to create windows you will love and that will perform well for many years into the future.

Style Options

Energy Shield's high-performance windows provide superior energy efficiency. They're also gorgeous. We offer an extensive selection of beautiful window designs to transform the look of your home's interior and exterior.

Color Choices

All the work of painting window frames is a problem of the past. As [vinyl window contractors](#), Energy Shield offers vinyl windows in a dazzling array of beautiful rich colors that withstand the harshest punishment from the southwest US desert sun and heat, for decades to come.

Glass Package

You will have all of today's best options for windows that deliver the world's best protection against extreme desert temperatures, including double-pane construction, Low-E glass, and argon-gas fill, all in energy-efficient framing.

Glass Etching

Energy Shield offers some of the finest custom glass etching to create among the most exquisite decorative detailing available anywhere on the commercial window market.

Grille Styles

Decorative window grilles (grids) can upgrade a home with a more elegant aesthetic. Energy Shield offers a range of grille styles, including Modern, Colonial, Victorian, Tudor, Cottage, and Prairie Style, to polish your home's curb appeal.

Frame Material

You can choose from aluminum, vinyl, and wood-clad window framing. It's worth considering that exterior-grade vinyl windows have revolutionized the window manufacturing industry. Vinyl windows now account for over 70% of all residential windows sold in the United States. That's because they're fade-resistant, economical, and they offer the highest energy efficiency of any framing type.

Installing Replacement Windows

When you order windows from Energy Shield, you can expect your new replacement windows to be delivered soon. As both your window builders and your [window installation contractors](#), we walk you through every step of the process. Here's some information you'll need to know:

- **Prepare for Installation:** While your windows are being custom built, you can make the minor preparations necessary in your home to make room for the installers to work.
- **Permits:** Energy Shield specialists will work with you on who will obtain any permits that may be required by your Homeowners Association for window installation.

- **Installation Process:** The Energy Shield installation specialist(s) team will take out your old windows and install your new replacement windows, and add sealant, casings, and moldings as needed for optimum aesthetics and maximum weather protection.

Lifetime Warranty

We are your Energy Shield window replacement contractors. As such, we provide you with a Lifetime Warranty against manufacturing or installation defects in our windows and door products.

0% Down and 0% Financing

Our customers benefit from zero upfront cost, zero percent financing cost, easy monthly payments, and deferred payment options.
