Why Should I Replace My Windows and Doors?

If your electricity bills have been rising through the years, installing energy-efficient windows and doors will seal up your home and save you up to 30%. High-performance windows will transform your drafty house into a cozy and comfortable home.

Energy-efficient windows will also slash your greenhouse gas emissions, reducing your family's carbon footprint more than any other single change you can make in your home.

Need more great reasons to update your windows and doors? New windows and doors will also enhance your curb appeal, which helps your entire neighborhood. They also improve your home security and reduce both dust and noise pollution in your home!

Energy Shield Doors

Window Installation Contractors, Alhambra AZ

Upgrading your home with new energy-efficient double-hung windows means lower energy costs, easier cleaning, and enhanced beauty. Adding a bay window changes not just the aesthetic beauty of the living space but adds an entirely new functional space. If you want to realize your own design vision for your home, Energy Shield makes beautiful energy-efficient custom windows to suit your specifications.

- Double Sliding Windows
- Casement/Awning Windows
- Single Sliding Windows
- Single Hung Windows
- Bay/Bow Windows
- Picture Windows
- Custom Windows
- Commercial Windows

Window Framing Options

We've been manufacturing Arizona's highest-quality windows for decades. We recognize that today's construction-grade vinyl is the most practical framing option for energy-efficient windows in southwest desert homes. In fact, vinyl has become the most widely used material for windows in the country, by far. But, there's more to the story of modern window framing alternatives:

- **Vinyl frames:** Today's best vinyl replacement windows perform uniquely above other window types, exceeding federal minimum standards.
- **Wood frames:** There are cases, such as in historic homes, where wood frames are requisite for maintaining full authenticity.
- **Aluminum frames:** Aluminum framing is indispensable for the largest glass display windows.

Door Installation Contractors, Alhambra AZ

Beautiful exterior doors invite guests to your home and enhance your curb appeal. A new security door offers greater energy efficiency and strength. An updated glass patio door lets more natural light flow into your home while maximizing the energy efficiency of your home and opening up your view of the beautiful Arizona outdoors.
