## Why Should I Replace My Windows or House Doors?

---

According to the U.S. Department of Energy, about 30% of energy lost from homes is through windows and glass doors. Installing energy-efficient windows and doors eliminates this problem of wasting electricity. Other common reasons people decide to

replace windows and doors include:

- Eliminate air leaks around windows and doors
- Be more comfortable in your home
- Reduce electricity bills up to 30%
- Minimize outside noise
- Update your home's interior style
  
- Improve your home's security
- Reduce dust in your home
- Upgrade your home's exterior
- Reduce your family's carbon footprint
- Increase your property value
