Fiberglass Entry Doors

Your front door is one of the most important features of your home for keeping out Arizona's extreme temperatures. Entry doors need to be made to last, which is why we offer the full line of Plastpro products for our customers.

Our entry door has the following features:

- ***Fiberglass Door Skins:*** These high-impact skins are guaranteed not to mold, rot, rust, dent or warp. They're easy to stain or paint, and easy to clean.
- ***Composite Stiles:*** Our full-length composite stiles keep the door's insulation waterproof from top to bottom. They'll never splinter like an older-model wood-edged door and our composite stiles have twice the screw-holding power of wood doors.
- ***Patented Hydroshield™ Technology:*** Our front doors are protected on all six sides from mold, rot, corrosion, warping and delaminating.
- ***BTHP™ Snap-On Frames:*** Decorative glass is held firmly in place with proprietary BTHP™ clips.
- ***Multiple Locks & Hardware:*** Our extended lock blocks allow a wide variety of different types of locks and other hardware to be installed to suit your needs.
- ***Environmentally Friendly Foam Core:*** The foam core of our doors is completely free of chlorofluorocarbons (CFCs) in compliance with US environmental standards. Our foam cores also increase soundproofing and provide six times greater insulation than traditional wood doors.
- ***Factory Direct Products:*** All of our products are factory direct, which means you get the best price, service and quality.

Wood Entry Doors

At Energy Shield Window & Door Company, we provide a variety of wood entry doors that bring a number of benefits to every home. Some of the benefits of our wood entry doors include:

- ***Aesthetic Appeal:*** Our wood entry doors are meticulously designed to make sure they deliver the maximum aesthetic appeal possible. Wood is incredibly versatile and we can make our wood entry doors fit almost any style. Whether someone is looking for a classic look or taking a more modern approach, we can get the job done.
- ***Energy Efficiency:*** Wood entry doors are also incredibly energy-efficient. They act as great insulators and will keep the cold air and heat where it needs to be. This will go a long way toward reducing your energy costs, keeping your utility bills low and the money in your pocket.
- ***Fire Rating:*** Of course, entry doors also need to be safe. Our wood entry doors have a high fire rating and will stand up to the heat of ablaze. Even though nobody wants to think about the possibility of a fire breaking out, safety is still a top

wants to think about the possibility of a fire breaking out, safety is still a top concern.

By looking through our [catalog](#), people will quickly see that our wood entry doors can take many forms. We provide wood entry doors with sidelights, wood entry doors with glass, and more! We are confident that our products will exceed your expectations.

Glass Entry Doors

At [Energy Shield Window & Door Company](#), we also provide glass entry doors. Some of the benefits of our glass entry doors include:

- **Beauty:** Our glass entry panels provide an elegant, sleek appearance that will complement the interior of any home with ease. The unique appearance presented by a glass entry door cannot be matched. They give guests a great first impression and allow residents to bask in the beauty.
- **Natural Light:** Our glass entry doors also let in natural light. Whether or not the glass has been frosted for privacy, our glass doors will make any room feel bright and welcoming. This will also reduce electricity costs thanks to the added natural light!
- **Maintenance:** Finally, our glass entry doors are also very easy to maintain. Cleaning them is easy and glass doesn't rust, unlike some of the other options. This will ensure that the home looks beautiful for decades to come.

For these reasons, many people have already invested in the gorgeous glass entry doors from Energy Shield Window & Door Company.

Custom Entry Doors from Energy Shield Window & Door Company

At [Energy Shield Window & Door Company](#), we know that every home is different and everyone has different needs. For this reason, we also provide custom entry doors that everyone should take a look at. This unique option provides everyone with the ability to tailor their entry doors to meet their needs. A home is a significant investment, so people should take the time to get their [entry doors](#) exactly as they want them. Thanks to the professionals at Energy Shield Window & Door Company, they can do exactly that.

Why not take a look at our catalog and review some of the options?
