

# Post Window Installation Checklist

---

 [energysieldwindowsanddoors.com/post-window-installation-checklist/](https://energysieldwindowsanddoors.com/post-window-installation-checklist/)

After your new windows and doors have been installed, the **Energy Shield Window Installation experts will perform a thorough inspection to ensure that exceptional criteria standards have been met.** Our installers follow a checklist to ensure you have received materials and workmanship, and to adhere to all applicable compliance regulations.

When the installation is complete, as the home or business owner, **Energy Shield Windows and Doors** strongly suggests that you ***follow through with a series of steps for a post-window installation checklist and simple maintenance recommendations to ensure optimal condition for the life of your new windows and doors.***

## Make Sure Your Window Features Work Correctly

---

Your new **Energy Shield Windows and Doors** ***should open and close effortlessly with minimal resistance.*** Check the functionality of the hardware of each window and doors. Should you find any problem after installation, please [Contact Us](#) as soon as possible to have it remedied.

## Continual Maintenance

---

Your new Energy Shield Windows will require ***minimal maintenance.*** For the first few months after installation, we recommend that you perform a regular visual inspection of the windows and doors to avoid water or air leakage. Maintenance will also include cleaning and lubricating window tracks and door hinges, as needed.

## Register Your Warranty

---

Take the time after installation to review your warranty and register the warranty on the installation website. ***By becoming familiar with the warranty's coverage in case of any future problems or malfunction that you can claim compensation.*** Energy Shield confidently offers a lifetime warranty for our durable, high-quality products.

## File Your Paperwork

---

By filing all of your paperwork together and in the same place will be useful should you need your warranty or for property appraisals. ***Be sure you keep together your receipt, installation paperwork, manuals and warranty information in one place*** for easy access and peace of mind.
